Project support incl. travel and subsistence	59 000
Extraordinary project support	0
SUM - Project support	75 000
SUM - Total	75 000

There has been a reduction in your budget due to limited budget in Nordplus Horizontal. You decide yourself how you best can carry out your project with the granted amount.

The support for "Project management" is the maximum sum you can use for administrative expenses (such as work hours, accounting, reporting, etc.) See the Nordplus Handbook p. 32. This is a lump sum based on the number of participating institutions. The project decides how this sum shall be distributed among the participating institution.

The "Project support incl. travel and subsistence" shall be used on the activities as described in the application and must be accounted for in the final report. If you want to make (major) changes to the budget or the activities during the project period, please contact the main administrator for Nordplus Horizontal.

Note that grant given to "Project support incl. travel and subsistence" cannot be used for salaries to project participants.

Nordplus expects that the project reaches its aims with the expected results and outcome described in the application.

Please let us know if you think it is not possible to complete the project due to the reduced costs.
